everybody's business and to make it a part of the South Carolina Workers' Compensation system and protect employees from having to pay a large cost for an injury when that injury, combined with a prior accident or disability, produces medical costs or a disability that is greater than the accident alone would have produced. This insures that an employer is not made to suffer a greater monetary loss or increased insurance costs because it hires an employee who is considered disabled.

The classic example of a second injury case is the one-handed worker who loses his hand in a job-related accident. Under the Workers' Compensation law, this person is now considered totally disabled. The employer will certainly feel that he was being treated unfairly because he must pay for additional workers' compensation expenses that he did not cause. However, to limit the employee to a recovery equal to the loss of only one hand is plainly unfair to that employee who now has no hands and is thus permanently and totally disabled.

## **SOUTH CAROLINA SECOND INJURY FUND**

Under a second injury fund system, the employer basically pays only the costs or benefits that are due for the injury. This creates employment opportunities for disabled workers by removing an employer's fear of increased workers' compensation costs and assures that capable workers are not laid off and employed for their skills and abilities rather than being stigmatized as being disabled. Some of the advantages of a second injury fund are:

The principle of a second injury fund is to separate the costs of an injury from the costs of a disability. The employer and insurer on one hand, and the second injury fund on the other, are responsible for the disability caused by accident and the second injury fund is made up of the difference between the employer's liability and whatever is payable as a whole. The system of apportionment varies from state to state. In establishing the Second Injury Fund in South Carolina, the Legislature created a system of reimbursement that eliminates the controversy over proportionate sharing of liability between the employer, carrier and the fund by creating the 15 week rule. This rule reduces the employer or carrier to pay the first 15 weeks of disability. Thereafter, the same employer may be eligible to receive reimbursement from the second injury fund for all remaining benefits. Reimbursement of the second injury fund is made by the fund and is shown on the employer's

The Workers' Compensation Law in South Carolina has contained provision for Second Injury Fund benefits since the law was enacted in 1938. Inadequate funding and narrow scope of the law prevented effective utilization of the Fund by employers and carriers. In 1973 the Act was amended creating a broad-covered Second Injury Fund and again amended in 1974 establishing the Fund as a separate state agency.

## HISTORICAL

The Second Injury Fund functions within the South Carolina Workers' Compensation system and protects employers from having to pay a larger cost for an employee's injury when that injury, combined with a prior accident or disability, produces medical costs or a disability that is greater than the accident alone would have produced. This insures that an employer is not made to suffer a greater monetary loss or increased insurance costs because it hires an employee who is considered disabled.

The classic example of a second injury case is the one-handed worker who loses his hand in a job-related accident. Under the Workers' Compensation Law, this person is now considered totally disabled. The employer will certainly feel that he was being treated unfairly because he must pay for additional workers' compensation exposure that he did not cause. However, to limit the employee to a recovery equal to the loss of only one hand is plainly unfair to that employee who now has no hands and is thus permanently and totally disabled.

Under a second injury fund system, the employer basically pays only the costs or benefits that are due for the injury. This creates employment opportunities for disabled workers by removing an employer's fear of increased workers' compensation costs and assures that capable workers are judged on and employed for their skills and abilities rather than being discriminated against because of some previous accident or disability.

The principle behind second injury funds requires the costs of benefits payable to be allocated between the employer and insurer on one hand, and the second injury fund on the other. It is common for the employer or his insurer to pay for the disability caused by accident and the second injury fund to make up the difference between the employer's liability and whatever is payable as a whole.

The system of apportionment varies from state to state. In establishing the Second Injury Fund in South Carolina, the Legislature created a system of reimbursement that eliminates the controversy over proportionate sharing of liability between the employer/carrier and the Fund by creating the 78 week rule. This rule requires the employer or his carrier to pay the first 78 weeks of disability. Thereafter, this same employer may be eligible to receive reimbursement from the Second Injury Fund for all remaining benefits.

The Workers' Compensation Law in South Carolina has contained provision for Second Injury Fund benefits since the Law was enacted in 1936. Inadequate funding and narrow scope of the Law prevented effective utilization of the Fund by employers and carriers. In 1972 the Act was amended creating a broad-coverage Second Injury Fund and again amended in 1974 establishing the Fund as a separate state agency.

In May of 1989 the administration of the Uninsured Employers' Fund was changed legislatively from the State Workers' Compensation Fund to that of the Second Injury Fund, and as of June 1990 the Uninsured Employers' Fund was permitted to become involved in uninsured employers' cases much sooner than before and this has resulted in better service to injured employees.

### HIGHLIGHTS OF THE YEAR

The Americans With Disabilities Act (ADA) became effective July 1992. The ADA will ultimately impact all employers who have at least 15 employees. This law is designed to provide a clear and comprehensive mandate for the elimination of discrimination against individuals with disabilities. The Second Injury Fund provides an enhanced mechanism to distribute the costs of injuries involving disabled persons and protects employers who are subject to this new federal law from increased insurance costs. However, in South Carolina, where the majority of employers have less than 15 employees, the Second Injury Fund concept alone continues to promote the employment of the disabled by encouraging those employers who are not subject to the ADA to employ disabled workers.

The Uninsured Employers' Fund continued to protect injured employees by providing a means by which their claims were paid. During the past year, the Fund has experienced more and more employers failing to provide workers' compensation insurance and is seeing repeat offenders who seem intent upon taking advantage of the corporate laws of the State in order to avoid the expense of insuring their workers. The Uninsured Employers' Fund will continue to make every effort to force these individuals and companies to pay for their own accidents.

The Second Injury Fund is implementing the final development phases of its new computer automated management system. This system, when fully operational in the coming year, will increase the effectiveness of all departments. However, the vast majority of credit for this system must go to the Budget and Control Board's Division of Financial Data Systems. They have provided the impetus for the creation and installation of the system. Their people have worked closely with the Fund, and together we have developed a claims, administrative, and legal system along with an effective collection system for the Uninsured Employers' Fund. Each program was designed to handle the needs of the agency and to augment its day-to-day operations.

In addition to its regular efforts to make employers and insurance carriers more knowledgeable about the Second Injury Fund, this year we worked closely with the South Carolina Workers' Compensation Educational Association to produce two highly detailed seminars concerning coverage, reimbursement procedures, and case law. These seminars were attended by over 140 individuals representing employers, carriers, and members of the legal profession. As a result of the reception of these programs, we have been encouraged to expand their scope in the coming year.

## SECOND INJURY FUND

### Director

The administration and operation of the Fund is the responsibility of the director who is appointed by and serves at the pleasure of the Budget and Control Board.

Under the general supervision and management of the director are the Fund's three functional divisions: (1) claims, (2) legal, and (3) administrative.

### Claims

The administration and management of claims are responsibilities of the Claims Division. After a claim is reported, its progress through the system is monitored at various stages by claims personnel. Individual case files are reviewed to ensure that the requirements of the Second Injury Fund or Uninsured Employers' Fund and the rules and regulations of the Workers' Compensation Commission are being observed. This includes investigation, evaluation, and developing a course of action to reach a final disposition in each case. Conflicts of a non-judicial matter are resolved in the Claims Division.

### Legal

The Legal Division represents the Fund in contested hearings before the Workers' Compensation Commission and in all appeals before the Full Commission, the Circuit Court, the Court of Appeals, and the South Carolina Supreme Court. All fatal workers' compensation cases are reviewed by the legal staff, and in the absence of dependents or adult children, the Second Injury Fund is beneficiary of the commuted death benefits. The Legal Division advises the Director on questions of the law and administrative or judicial procedures and represents the Fund in all other matters as instructed by the Director.

## Administrative

The Administrative Division is responsible for a variety of internal programs, including assessment, finance, budgeting, personnel, staff development, purchasing, inventory, facility maintenance, motor vehicles, mail and printing, office services, and affirmative action.

Another important function of all divisions is employer/ carrier education. This is accomplished by:

1. The Director of the Fund at various Workers' Compensation Commission, employer and insurance carrier conferences by presenting programs about the Fund.
2. Agency representatives explain the extent of coverage by the Fund while attending hearings, conducting investigations, or visiting employers or carriers.

**SOUTH CAROLINA SECOND INJURY FUND  
ORGANIZATIONAL CHART**

## STATUTORY AUTHORITY FOR THE AGENCY

Section 42-7-310 of the South Carolina Workers' Compensation Law creates the Fund and establishes the agency to administer the Fund in accordance with the provisions of Sections 42-9-400 and 42-9-410.

The following outline lists the basic requirements for reimbursement:

1. The employee must have a prior permanent physical impairment of such seriousness as to constitute a hindrance or obstacle to obtaining employment or reemployment.
2. (a) The employer must prove that he had knowledge of the permanent physical impairment at the time the employee was hired or retained when a claim is made for reimbursement; or  
(b) The employer may qualify for reimbursement if he can prove that he did not have a prior knowledge of the employee's pre-existing physical impairment, because existence of such condition was concealed by the employee or was unknown to the employee.
3. The employee must sustain a subsequent occupational injury:
  - (a) Which results in the employer's liability for disability and/or medical cost that is substantially greater than that which would have resulted from the new injury alone because of a combination with or aggravation of the prior impairment;
  - (b) Which most probably would not have occurred "but for" the presence of the prior impairment;
  - (c) Which results in the death of the employee, and the death would not have occurred except for the pre-existing impairment.
4. An amendment to the Code now requires as a prerequisite to reimbursement from the Fund, the insurer shall be required to certify that the medical and indemnity reserves have been reduced to the threshold limits of reimbursement.

Before the Fund can reimburse an employer, a disabled worker must suffer a subsequent injury. This injury must combine with or aggravate the prior impairment, thus causing liability substantially greater than that which would have occurred from the subsequent injury alone. This is the basic concept of Second Injury Fund legislation, and without this substantial increase in liability, the employer has not been placed at a disadvantage. Therefore, he would not be eligible for reimbursement.

## ASSESSMENTS

Section 42-7-310 subsection (d) of the Workers' Compensation Laws of South Carolina states that:

The funding of the Second Injury Fund on a continuing basis shall be by equitable assessments upon each carrier (which, by definition herein, shall include all insurance carriers, self-insurers, and the State Workers' Compensation Fund) in a manner as follows:

Each carrier shall, under regulations prescribed by the Workers' Compensation Commission, make payments to the Fund in an amount equal to that proportion of one hundred seventy-five percent of the total disbursement made from the Fund during the preceding fiscal year less the amount of the net assets in the Fund as of June thirtieth of the same fiscal year, which the total benefits paid by such carrier bore to the total benefits paid by all carriers during the calendar year which ended within the preceding fiscal year. An employer who has ceased to be a self-insurer shall continue to be liable for any assessments into the Fund on account of any benefits paid by him during such calendar year.

These assessments were sent to each carrier in September 1992 and payments subsequently received at the Second Injury Fund.

175% of the Disbursement is . . . . .	\$66,703,179.11
Less Remaining Net Assets @ June 30, 1992 . . . . .	\$26,431,163.32
Equals SIF Assessment for 1991-92 . . . . .	\$40,272,015.79

This assessment (\$40,272,015.79) divided by the total Workers' Compensation benefits paid by all carriers (\$344,297,498.00) equals the assessment rate (.116968656) applied to each carrier.

**SOUTH CAROLINA WORKERS' COMPENSATION UNINSURED  
EMPLOYERS' FUND**

The State Workers' Compensation Insolvency Fund, S.C. Code Section 42-7-200, was established on February 24, 1982. On April 26, 1989, an amendment to this Act placed the administration of the Fund with the South Carolina Second Injury Fund. On June 12, 1990, it was changed to the South Carolina Workers' Compensation Uninsured Employers' Fund.

The mission of the Uninsured Employers' Fund is to ensure payment of workers' compensation benefits to injured employees whose employers have failed to acquire necessary coverage.

For a claim to come within the scope of the Uninsured Employers' Fund, there must first be a finding by the Workers' Compensation Commission that an employer is subject to and in violation of the Workers' Compensation Law as a result of their failure to provide the necessary insurance coverage. If that determination is made, the Fund may then consider the merits of an employee's claim and pay or defend the claim as it deems necessary. Once the Uninsured Employers' Fund has paid a claim, it is entitled by statute to recover the benefits, costs and expenses from the employer or whoever is legally responsible for payment.
